PICCOLI GENERAL INFORMATION

Piccoli Nursery School offers your child stimulating and interesting surroundings which promotes carefree playtime. Free reigns are given to your child's imagination in order to playfully empower him to form creative ideas, solutions and approaches. In any child's development, the playtime phase is of cardinal value. We extend and complement the attitude and authority of your own home, and in doing so offer a second home to your most valuable possession where he or she remains the most important.

The daily programme of the curriculum followed includes the following:

- Bible
- Art and craft activities
“Make-and-bake”, painting, drawing and collage
- Environmental studies and world orientation
(Perception, knowledge expansion)
- Nature and areas of interest
(Flower gardens and growing of vegetables)
- Language development
(Stories, rhymes, puppets, second language)
- Songs, music, movement
- Routine activities
(Arrival, toilet routine, cleaning, mealtimes, resting, leaving)

The Nursery School programme is however not fixed and is very accommodating in order to encourage informal education in a humane and personal manner. Piccoli Nursery School is an educational centre which is registered at the Association of Pre-Primary Education and Care. The personnel are qualified teachers with experience who will give the children individual attention in a loving environment.

1. ENTRY REGULATIONS

- Children from 3 months to 6 years are accepted.
- Christian values are accepted and practised in the education of your child.

2. LANGUAGE POLICY

- The language of instruction at Piccoli Nursery School is bilingual (Afrikaans and English).
- **In order for your child to be considered for enrolment at Piccoli Nursery School, he/she must have either Afrikaans or English as their home language.**

MOTHER TONGUE – The term "mother tongue" refers to a person's **native language** — that is, a language learned from birth.
HOME LANGUAGE – is considered the language spoken at home and it does not necessarily have to be the mother tongue.
LANGUAGE of INSTRUCTION – is the language in which the child is educated.

- Piccoli Nursery School is a registered educational institution where we are focused on helping children achieve their age-specific developmental milestones and outcomes.
- For this reason, we conduct a thorough assessment of each child throughout the school year.
- **Children from the age of 3 must have age-appropriate language skills in English or Afrikaans to gain admission to the school.**
- **It is the parent's own responsibility to take corrective action should the chosen language not develop appropriately.**
- Proof must be given that additional steps are being taken (e.g. speech therapy) to develop the child's language comprehension and skills.
- The school currently only makes provision for Afrikaans and English as language of instruction. This is in preparation for the primary schools in the area that the children will go to. **The school management's assessment regarding a child's language proficiency is final for the consideration of admission of the child concerned.**

- Children may only be collected by a responsible person, as arranged beforehand.
- We encourage parents to swiftly drop the children off (GREET and GO) and not engage in unnecessary discussions. The longer you stay the more difficult the goodbyes are and it also upsets the other children in the classroom.
